GUEST LIST · QR CHECK-IN · TEAM

The guest list app that makes the door the easiest part of your event.

Import from Excel, hand your team the app, and check guests in with a tap or a QR scan. On iPhone, iPad, Android and the web.

eventor.app · Made in Switzerland by ClickOn GmbH

2026

WHY WE BUILT IT

"It should be under my colleague's name."

A printed list works until the third person in the queue. Then someone flips pages, three people update three spreadsheets, and the first impression of your event is a wait.

- × Paper lists and pens at the entrance
- × Last-minute changes that never reach the door
- × No idea who actually came until someone re-types it

Eventor replaces all of it with one live list on every device.

HOW IT WORKS

From spreadsheet to smooth check-in in three steps

No training sessions, no hardware to rent. If your team can use a phone, they can run the door.

Import your guests

Drop an Excel or CSV file into the web dashboard. Columns match automatically; only first and last name are required.

01

Invite your team

Hostesses, promoters and colleagues get a role. Check-in-only staff see the list and nothing else.

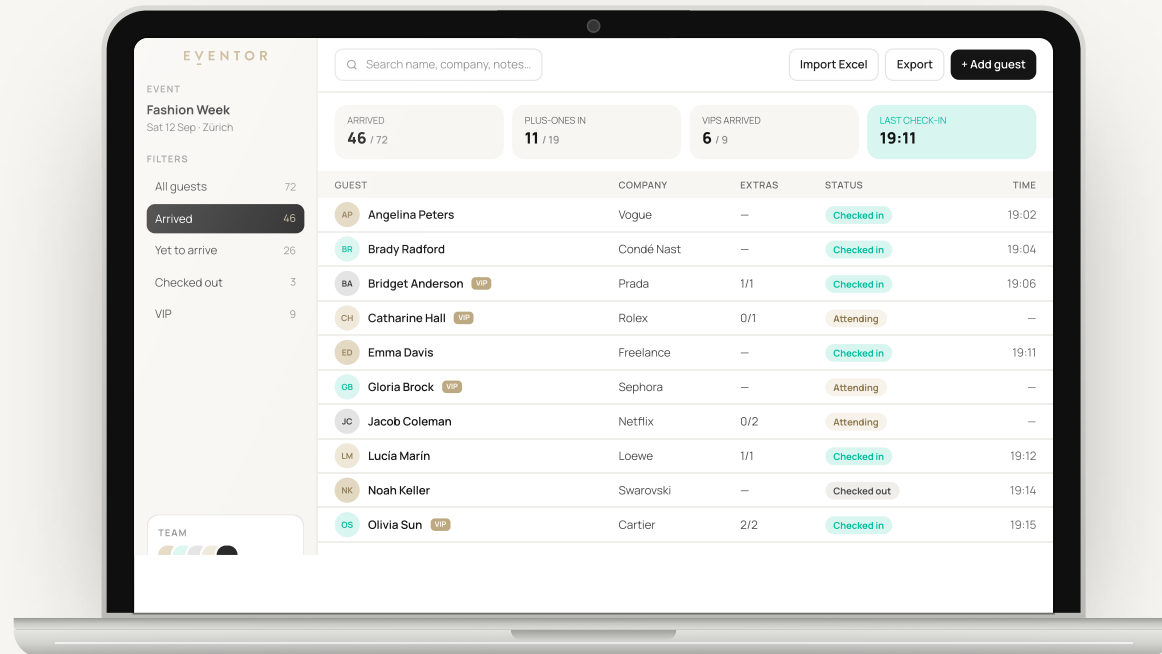

02

Check in at the door

Search and tap, or scan the guest's QR code. Plus-ones, VIPs and photos are on the list. Every device is in sync.

03

AT THE DOOR

Built for the moment the doors open

Instant sync on every device

Up to 30 phones and tablets share one live list.

QR code check-in

Unique code per guest, scanned in 0.4 s with the camera.

Check-out mode

Departures with timestamps for capacity and multi-session days.

Works when Wi-Fi fails

Check-ins are stored on the device and synced later.

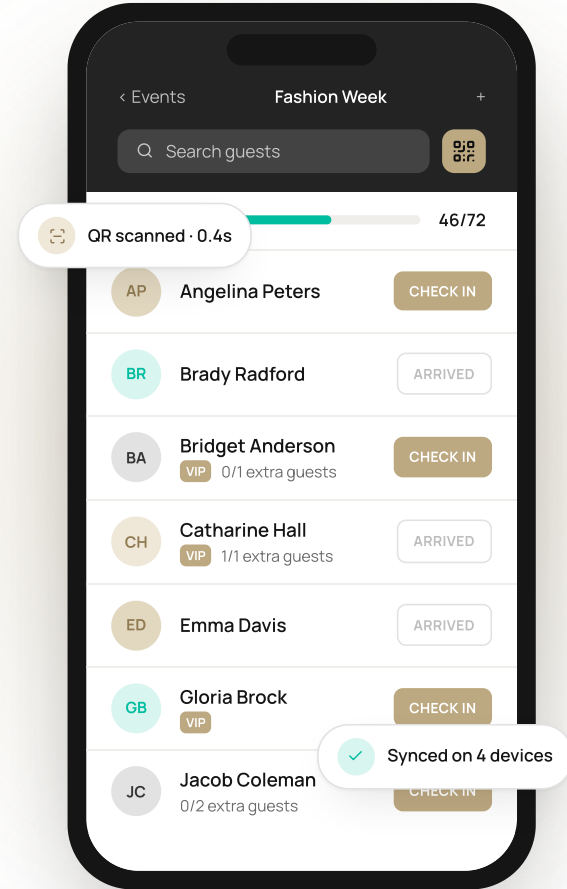

Plus-ones done right

Up to 10 extras per guest, checked in one by one or all at once.

Export who came

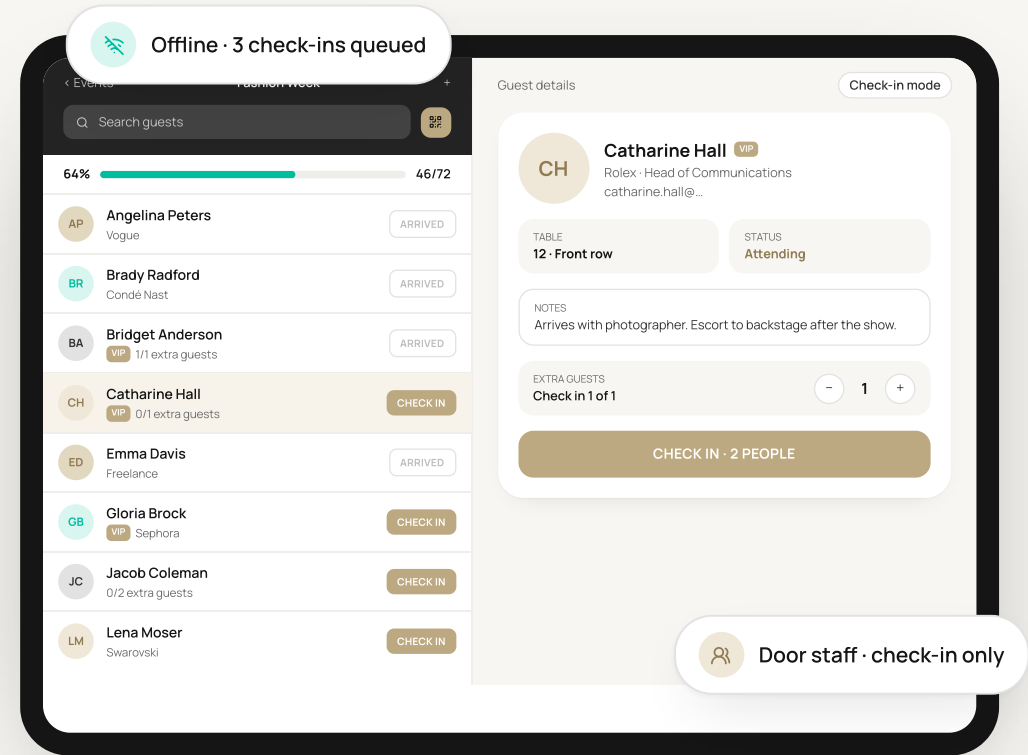

Excel or CSV with check-in and check-out times.

TEAM & DEVICES

Hand a tablet to anyone, without handing over your list

- ✓ **Four roles:** owner, manager, promoter with a guest quota, check-in only.
- ✓ **Shared events** on iPhone, iPad, Android and the web, same role everywhere.
- ✓ **Up to 30 devices** scanning at the same time on one live list.
- ✓ **Push notifications** when a VIP arrives or a device joins.

DEVICES

Available everywhere your team is

The six devices organizers bring to the door most often, from 24,000+ check-in devices registered since 2024. Any laptop with Chrome or Safari runs the full dashboard.

iPad (A16, 11")

Seated welcome desk, one hostess per device

iPad Air (M-series, 11" or 13")

Premium entrances, VIP desks, brand events

iPad mini (8.3")

Roaming hostesses, queue busting, VIP escorts

iPhone 13 to 17

Any door. Your team already has one in their pocket

Samsung Galaxy Tab A11+ (11")

Multi-device setups on a budget, rental fleets

Samsung Galaxy S23 to S25

Android teams, promoters with their own phones

Mac, iMac and Windows: the web dashboard checks guests in by name, imports, exports and manages the team. QR scanning and offline check-in stay with the apps.

USED AT EVENTS FOR BRANDS LIKE

Launches, press days, galas and store openings

ROLEX	PRADA	BVLGARI	<i>Cartier</i>	VOGUE	SEPHORA
		PUMA	PORSCHE	NESPRESSO®	NETFLIX
Google	ORACLE	amazon		accenture	Uber

 HEINEKEN	BURBERRY	SAMSUNG	Dior	GUCCI	SAINT LAURENT

Brand names from event titles run on Eventor, 2018–2026. Events were organised by the brands or by their agencies.

WHAT ORGANIZERS SAY

"I used the app for 3 store opening events in Switzerland. The app is very easy to use and reliable. ClickOn even provided us 2 Nexus 9s. Great product & great service!"

Fanny Tribala · Events for a luxury brand · Switzerland

"We do use the App for all our VIP events, it is very easy to use for our models and hostesses who are in charge of the entry control and guest list. There is no further explanation needed, very easy to use."

Martina Marthaler · Huber Event Promotion, Montreux · Switzerland

"Just wanted to say a huuuuge thank you on behalf of all the Wedding Industry Awards crew and our 180+ inbound guests, production crew and evening entertainers. All inbound guests successfully, and seamlessly checked in. Eventor is quite simply the BEST app ever!"

Pete · Wedding Industry Awards · New Zealand

Bronze subscription
Unlimited events at Bronze limits · 3-month minimum

CHF 50
per month

Silver subscription
Unlimited events at Silver limits · 3-month minimum

CHF 99
per month

Gold subscription
Unlimited events at Gold limits · 3-month minimum

CHF 170
per month

DATA SECURITY

Your guest list is personal data. Here is how we look after it.

Secure datacenters

Google Cloud in Germany and Switzerland, daily backups, automatic failover.

Encrypted end to end

TLS behind Cloudflare in transit, encrypted at rest. Cards handled by Stripe.

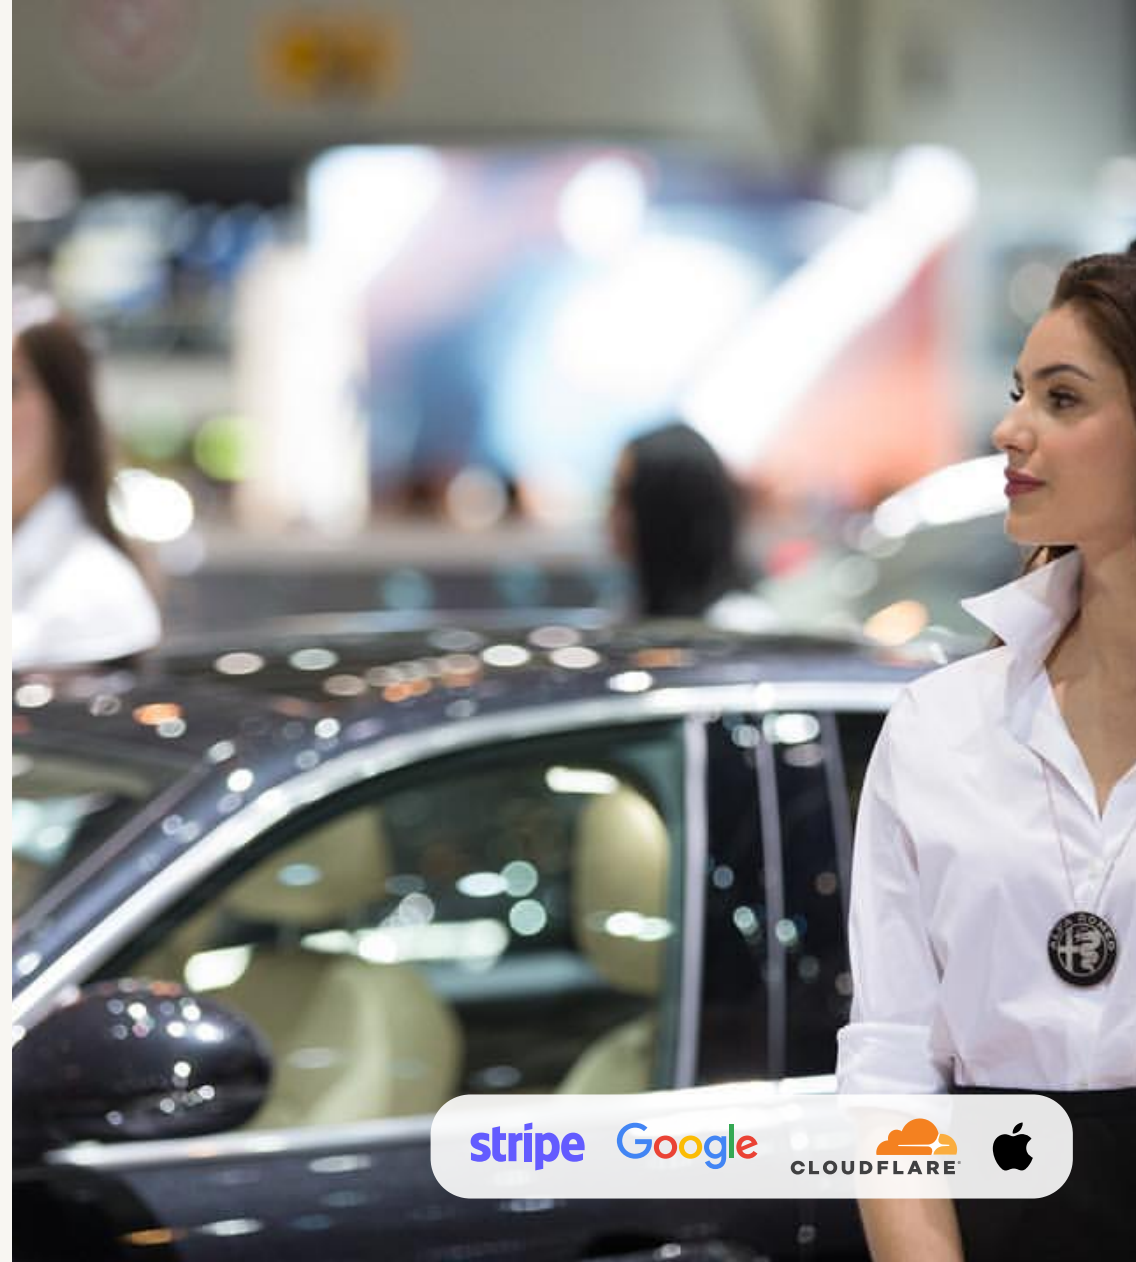

Roles you control

Owner, manager, promoter with a quota, or check-in only. Same on web, iOS and Android.

Yours to export or delete

Export any time; deleting an event or account removes guests, photos and history.
